Working models

- Students of C1/S1 will design working models. They can choose a topic from Physics, Chemistry, Biology or Computer Sciences.

Working model of street light system made by students at Founder's day exhibition.

SADIQ PUBLIC SCHOOL

Rules of the Science Project Competition for Prep Section

Sadiq Science Society is arranging a science project competition for classes P-6, P-7, C1/S1. This programme is designed according to the syllabus of each class.

Following is the category for class:

C1/S1 Working Projects

The students will prepare their Science projects during summer vacation and will hand it over to the teachers as the school reopens.

Last date for the submission of science projects to the concerned science teacher of that class is 08-09- 2022. The competition will be held on 10-09-2022.

Following are the rules for the preparation of science projects:

- Any student from class can prepare their projects. The science teachers of the concerned class will shortlist the projects. These short listed projects will be displayed in Anwar Sikandar Hall for the competition.
- At least 3 projects will be selected from each class. However, if any other project seems better, it can also be selected.
- For class C1/S1, only those projects will be accepted that will be prepared by the students.

Market made projects will be disqualified.

- Working projects can be selected from Biology, Physics, Chemistry or Computer Sciences.
- Name, roll number, class of the students should be mentioned on their posters, models and projects.
- Winners will be awarded with the shields while the participants will be given the certificates.
